Github: [shadan72](#) | [Portfolio](#) | [LinkedIn](#)

Front-end web developer and computer science specialist with experience in React, JavaScript, HTML, and CSS. Back-end experience using ASP.NET and SQL Server. Worked as an instructor in different computer fields such as C++, ASP.NET, and Linux. Strong team-building and leadership skills and comfortable working under deadlines from supervising projects while teaching.

## TECHNICAL PROJECTS

### The-movie-bubble-website - [Github](#) | [Demo](#)

*Suggests four movies based on user preferences after users answer random questions related to different genres of movies.*

- + Encourage users to find the right movie for themselves to watch, because of a huge number of movies many times users cannot decide to choose one of them
- + Implemented user interface employing React and TailwindCSS for styling
- + The main contents include a system that tracks the quiz and movie listing with details.

## SKILLS

### Computer:

▪ Advanced Databases (Microsoft SQL Server, Microsoft Access) ▪ Programming Languages (C++) ▪ Web Design & Programming (React, JavaScript, HTML, CSS, ASP.NET, WordPress) ▪ Microsoft Office ▪ Operating Systems (Windows, Linux)

### Languages:

▪ English (Excellent) ▪ Kurdish (Native) ▪ Arabic (Excellent in reading/writing; limited in speaking)

## EMPLOYMENT

### Gasha Institute, Erbil, Iraq

2018 - 2020

Instructor

- + Evaluated and grew academic development of students as a member of the Examination Committee and Scientific Affairs
- + Supervised groups of student projects, giving one-on-one and team feedback on coding and providing mentorship while meeting deadlines
- + Taught Computer Science subjects to more than 150 students; responsible for curriculum planning, testing, syllabus, and grading

## EDUCATION

### Re:Coded Bootcamp ([Re:Coded](#) + [Flatiron School](#))

2020

Front End Web Development (HTML, CSS, JavaScript, React)
